

CIS 250 Week 9 Overview

Read: Odom Chapters 15 through 18 (you have two weeks for these readings).

Complete:

- Assignment 5: Routing (two-week assignment)

This week begins (finally?) a look at routers and routing in general. The assignment for this week is the most complex assignment so far this semester and therefore you will have two weeks to complete it. That complexity means that you should consider getting an early start on the assignment so that you have an opportunity to address any questions with the instructor.
